

Examples of Version and Project data in JSON

With Raley Notifications you can send messages about events in lifecycle of JIRA versions and projects. All of the events are supported out of the box.

Version sample data

```
version: {
  "archived": false,
  "overdue": false,
  "name": "MY DUMMY VERSION NAME",
  "self": "http://my_dummy_version_self_url",
  "description": "DUMMY DESCRIPTION",
  "userReleaseDate": "16/Feb/16",
  "id": "10000",
  "userStartDate": "25/Feb/16",
  "projectId": 10000,
  "project": {
    "projectId": 10000,
    "released": true
  }
}
```

In case of version merged, the JSON will also contain mergedTo version

Merged to version sample

```
{
  "version": {
    "archived": false,
    "overdue": false,
    "name": "MY DUMMY VERSION NAME",
    "self": "http://my_dummy_version_self_url",
    "description": "DUMMY DESCRIPTION",
    "userReleaseDate": "16/Feb/16",
    "id": "10000",
    "userStartDate": "25/Feb/16",
    "project": {
      "id": 10101,
      "key": "MFRP",
      "name": "My First Reference Project",
    },
    "projectId": 10000,
    "released": true
  },
  "mergedTo": {
    "archived": false,
    "overdue": false,
    "name": "MergedTO version name",
    "self": "http://merged_to_dummy_version_self_url",
    "description": "MergedTo version description",
    "userReleaseDate": "28/Feb/16",
    "id": "10020",
    "userStartDate": "5/Feb/16",
    "project": {
      "id": 10101,
      "key": "MFRP",
      "name": "My First Reference Project",
    },
    "projectId": 10000,
    "released": true
  }
}
```

Project is represented in the following format:

Project data

```
"project": {
  "projectLead": {
    "emailAddress": "company@dot.com",
    "displayName": "Jim Beam",
    "name": "admin",
    "key": "admin",
    "avatarUrls": {
      "48x48": "http://localhost:2990/jira/secure/projectavatar?avatarId=10324",
      "24x24": "http://localhost:2990/jira/secure/projectavatar?size=small&avatarId=10324",
      "16x16": "http://localhost:2990/jira/secure/projectavatar?size=xsmall&avatarId=10324",
      "32x32": "http://localhost:2990/jira/secure/projectavatar?size=medium&avatarId=10324"
    }
  },
  "name": "MY DUMMY PROJECT NAME",
  "id": 10101,
  "assigneeType": "admin.assignee.type.project.lead",
  "key": "DUMMY_PROJECT_KEY"
}
```
